

Where does your money go?

The money you raise from standing shoulder to shoulder with those children whose lives have been turned upside down by HIV will go a long way. We will use it to respond to the needs of people affected by HIV worldwide.

About Tearfund's HIV work

Tearfund works with partners around the world to stop and reverse the spread of HIV. In fact, by 2015 we want all the communities where our partners work to be free from the spread of HIV.

As well as offering education and treatment, Tearfund's partners work alongside children orphaned by AIDS. Whether it's providing food and clothing, education or training, our local partners live among some of the most vulnerable people, supporting them day after day.

A little more detail

Our work impacts the lives of millions of people in a variety of ways. Here are three of the key ways in which your money will be used:

- **Advocacy**
We advocate for orphans and vulnerable children (as well as those who are looking after them) on a number of issues; from education, safe drinking water and decent accommodation, to food security and clothing.
- **Counselling**
Too many people are unaware of the fact that they are living with HIV. By providing HIV counselling and testing our partners help to prevent the spread of the disease and open opportunities for treatment, care and support for people who test positive.
- **Seed funding**
Your money goes a long way in some of the poorest communities around the world. Our work supports local projects by providing much-needed funding.
